### **ABSTRACT**

*The aim of this study was to prove the effect of self-compassion on subjective well-being of orphanage adolescents in Padang City. The research method used in this study was a quantitative method with simple linear regression analysis technique. Participants in this study were composed of 150 orphanage adolescents aged 13-18 in Padang City. The participants were collected through accidental sampling technique. The instruments used in this research were the adaptation of The Satisfaction With Life Scale (SWLS) and The Scale of Positive and Negative Experience (SPANE) to measure subjective well-being, then Skala Welas Diri (SWD) to measure self-compassion. The result of this study showed that self-compassion has a significant effect on subjective well-being of orphanage adolescents in Padang City. It can be seen from the significance value which is .00 ( $p < .05$ ). The  $R^2$  value was .245, which means that self-compassion effects subjective well-being of orphanage adolescents in Padang City by 24.5%.*

**ABSTRAK**

Penelitian ini bertujuan untuk membuktikan adanya pengaruh *self-compassion* terhadap *subjective well-being* pada remaja panti asuhan Kota Padang. Metode penelitian yang digunakan adalah metode kuantitatif dengan teknik analisis regresi linear sederhana. Partisipan dalam penelitian ini terdiri dari 150 orang remaja panti asuhan berusia 13-18 tahun yang berlokasi di Kota Padang. Partisipan didapatkan melalui teknik sampling *accidental*. Alat ukur yang digunakan dalam penelitian ini merupakan adaptasi *The Satisfaction With Life Scale* (SWLS) dan *The Scale of Positive and Negative Experience* (SPANE) untuk mengukur variabel *subjective well-being*, lalu Skala Welas Diri (SWD) untuk mengukur variabel *self-compassion*. Hasil penelitian membuktikan bahwa *self-compassion* secara signifikan berpengaruh terhadap *subjective well-being* remaja panti asuhan Kota Padang. Hasil tersebut dapat dilihat dari koefisien signifikansi yang bernilai .00 ( $p<.05$ ). Koefisien  $R^2$  bernilai .245 yang berarti bahwa *self-compassion* mempengaruhi *subjective well-being* remaja panti asuhan Kota Padang sebesar 24.5%

**Kata Kunci:** *Subjective well-being*, *self-compassion*, remaja panti asuhan
