ABSTRACT

This research titled “Analysis of Financial Performance and Service Quality At Technical Unit Office of Industry and Trade of West Sumatera Province (UPTD Metrology) “ because the background by the problem that during the performance measurement is based only on the financial aspect and ignore the non-financial aspect. UPTD Metrology is a public sector organization where vision and mission to be achieved in the public sector organizations is the realization of a service system that can give satisfaction to the public therefore the performance measurement of these two aspects is needed.

This study analyzes the financial performance and analyze the service quality of UPTD Metrology. Analysis of financial performance is measured by using a variable absorption budgets and targets and realization of revenue from the levy. For the analysis of service quality, SERVQUAL variables used are examined from the dimensions tangibility, reliability, responsiveness, assurance and empathy. SERVQUAL method is used to measured the quality of service and customer satisfaction levels. This study uses secondary data for financial performance analysis and primary data in the form of questionnaires given to respondents from services user of UPTD Metrology.

The results showed that the financial performance UPTD Metrology indicates financial success rate of 96.91% and categorized as Very Successful. Based on the analysis of quality of service in which the level of service quality achieved by 74.64% and customer satisfaction rate of 84.37% with a total value of overall performance aspects of service quality is equal to 79.50% with the category Successfully. Overall, performance is measured UPTB Metrology trough financial aspect and service quality aspect in year of 2015 amounting to 88,20% and categorized as Very Succesfull.

Keywords: Financial Performance, Service Quality, SERVQUAL
