AGRICULTURE IN STRUKTOR'S ROLE WITHIN THE RICE PLANTATION ACTIVITY IN NAGARI KOTO TANGAH SUB DISTRICT TILATANG KAMANG DISTRICT AGAM REGENCY

ABSTRACT

The research is used to describe the implementation of rice plantation activity in Nagari Koto Tangah sub district Tilatang Kamang district, Agam Regency. The research uses casestudy method with descriptive data analysis. The result of the research shows that the instructor has conducted the counseling based on SOP (Standard Operational Procedure). The research also concludes that the evaluation the assessment of intruktor role reaches 98,1 %and it can be categorized as asuccess. The research suggests that the farmers continu to use instructor innovation in rice plantation activity. So, the use value of rice become higher and better. Furthermore, the rice become priority commodity. The government and related institution should facilitate and agriculture instructure activity whisch gives good impact the farmers. By goverment support the activity can be well planned and well orgarized to reach the farmer's hope
