

## CHAPTER 4

### CONCLUSION

In this research, by using the types of impoliteness strategies by Boris Johnson's Speech on the European Union Referendum on May 9, 2016. By referring to Culpeper impoliteness strategy and the theory of SPEAKING by Hymes. The research discovered Johnson has applied 30 utterances containing impoliteness strategy. There are types of impoliteness strategy during the speech: positive impoliteness, sarcasm or mock politeness strategy. This research, sarcasm occurs 20 times where Johnson has to attack EU from the vagueness system in EU.

For future studies, there are many objects of impoliteness studies in the leader of the world need to research. This study hopes to give information to anybody who interested in learning it and do the deeper analysis.
