

## **CHAPTER VI**

### **CONCLUSIONS**

This chapter consists of conclusion of the research and suggestion to the next research

#### **6.1 Conclusion**

Based on the research about developing the data warehouse and the performance of students and workers dashboard, it can be concluded that:

1. The dashboard made by considering the Borang Akreditasi Program Studi BAN-PT 2019. From the information displayed, the performance of students and workers based accreditation standards BAN-PT is reach out the KPI. But the student's GPA should be increased because at several year (2016-2018), the student's GPA is below the KPI.
2. The information is delivered quickly and easily using the conducted dashboard using PowerBI Desktop application. There are 6 dashboard that has been conducted, i.e. dashboard of student, dashboard of applicant, dashboard of prospective student, dashboard of student's GPA, dashboard of workers and dashboard of the ratios.

#### **6.2 Suggestion**

Some suggestions that can be given in further research :

1. The dashboard is developed to monitor the entire performance of university based on Standar Akreditasi BAN-PT
2. The data in database should be increased, based on the data needed to monitor the university performance of accreditation
3. The database used in designing the dashboard is accessible and can be published
