ABSTRAK

Tujuan Penelitian

Dana Non Kapitasi adalah dana Jaminan Kesehatan Nasional (JKN) yang digunakan untuk membiayai pelayanan kesehatan dan operasional FKTP diluar tarif kapitasi. Puskesmas Talang merupakan puskesmas dengan pagu dana non kapitasi terbanyak diantara 19 puskesmas di wilayah kerja Dinas Kesehatan Kabupaten Solok. Penelitian ini bertujuan untuk menganalisis pengelolan dana non kapitasi di Puskesmas Talang Kabupaten Solok tahun 2018.

Metode

Penelitian ini merupakan jenis penelitian kualitatif, informan berjumlah 8 orang, penentuan informan dilakukan secara *purposive sampling*. Pengumpulan data dilakukan melalui wawancara mendalam, observasi dan telaah dokumen. Analisis data dengan cara triangulasi sumber dan triangulasi metode.

Hasil

Hasil penelitian menunjukkan perencanaan pengelolaan dana non kapitasi: Pedoman penyusunan perencanaan merujuk kepada Permenkes, Permendagri, Perbup Kabupaten Solok. Perencanaan disusun dalam bentuk tim manajemen puskesmas, Pelaksanaan pengelolaan dana non kapitasi: pelaksanaan sesuai alur, verifikasi dan pembayaran klaim dari BPJS Kesehatan lama, pengajuan klaim 70% sudah tepat waktu, keterlambatan pembayaran klaim disebabkan ketidaklengkapan berkas yang ditemukan saat verifikasi serta defisit anggaran BPJS Kesehatan, pagu dana yang ada belum mencukupi, pencairan dari kas daerah terkendala peraturan yang belum rinci serta pemahaman petugas yang kurang. Pelaporan dan Pengawasan pengelolaan dana non kapitasi : pembuatan laporan sudah dilakukan rutin setiap bulan, pengawasan dilakukan oleh PPK.

Kesimpulan

Pengelolaan dana non kapitasi belum berjalan dengan baik karena belum mencapai target yang diharapkan. Untuk itu puskesmas diharapkan dapat mandiri dalam pengelolaan keuangan melalui PPK-BLUD sehingga puskesmas lebih fleksibel dalam pengelolaan keuangan.

**ANALYSIS OF NON CAPITATION FUND MANAGEMENT IN TALANG
PUBLIC HEALTH CENTRE IN SOLOK REGENCY 2018**

xii+ 92 pages, 10 tables, 1 images, 13 attachments

ABSTRACT

Research Purpose

The Non Capitation Fund is a National Health Insurance (JKN) fund used to finance FKTP health and operational services beyond the capitation rate. Talang Public Health Centre is a public health centre with the most non capitation fund ceiling among 19 public health centres in the working area of the Solok Regency Health Office. This study aims to analyze non capitation fund management in Talang Public Health Centre in Solok Regency 2018.

Method

This research was a qualitative method, the total of research informant were 8 informants, the informant determined by purposive sampling. Data collected by indepth interviews, observation, and documents review. Data analysed by triangulation sources and triangulation methods.

Results

The results of the study show that the planning of non capitation fund management: Guidelines for planning refers to Minister of Health Regulation, Minister of Home Affairs Regulation, Regulation of Solok Regent. Planning is arranged in the form of a health centre management team, Implementation of non capitation fund management: implementation according to flow, verification of old BPJS Health, 70% claim submission on time, late payment of claims due to incomplete files found during verification and BPJS Health budget deficit, fund ceiling there is not enough, disbursement from the regional treasury is constrained by non-detailed regulations and lack of understanding of duties. Reporting and Supervision of non capitation fund management: making reports has been carried out regularly every month, supervision is carried out by PPK.

Conclusion

Management of non-capitation funds has not gone well because it has not reached the expected target. For this reason, public health centre are expected to be able to be independent in financial management through PPK-BLUD so that public health centre are more flexible in financial management.
