*Agricultural extension agents are equal partners for farmers who have a strategic role in agricultural development. During The Covid-19 pandemic extension workers must be able to ensure that outreach activities in the field continue. This Research aims to analyze the performance of agricultural extension workers during the Covid-19 pandemic in Village Sikabau Dharmasraya District. The data collected in this research is primary data sourced from respondents, totaling 42 farmers by conducting direct interview in the form of a questionnaire. Data analysis used is descriptive quantitative using the guttman scale. The research showed that the performance of agricultural extension workers during the Covid-19 pandemic in Sikabau Village Dharmasraya district was classified as good which consists of aspects of preparation, implementation, evaluation and reporting of extension activities. Agricultural extension workers continue to carry out their main duties and functions during the Covid-19 pandemic. Changes in extension activities during the Covid-19 pandemic, namely not being able to carry out mass counseling, limiting the frequency of visits, reducing counseling materials and changing coaching methods.*

Penyuluh pertanian merupakan mitra sejajar bagi petani yang mempunyai peran strategis dalam pembangunan pertanian. Dalam masa pandemi *Covid-19* penyuluh harus bisa memastikan bahwa kegiatan penyuluhan dilapangan tetap berjalan. Penelitian ini bertujuan untuk menganalisis kinerja penyuluh pertanian pada masa pandemi *Covid-19* di Nagari Sikabau Kabupaten Dharmasraya. Data yang dikumpulkan dalam penelitian ini adalah data primer bersumber dari responden yang berjumlah 42 orang petani dengan melakukan wawancara langsung dalam bentuk daftar pertanyaan (kuisisioner). Analisis data yang digunakan adalah deskriptif kuantitatif dengan menggunakan skala guttman. Hasil penelitian menunjukkan bahwa kinerja penyuluh pertanian pada masa pandemi *Covid-19* di Nagari Sikabau Kabupaten Dharmasraya tergolong pada kriteria baik yang terdiri dari aspek persiapan, pelaksanaan kegiatan penyuluhan. Penyuluh pertanian tetap melaksanakan tugas pokok dan fungsinya selama masa pandemi *Covid-19*. Perubahan kegiatan penyuluh selama masa pandemi *Covid-19* yaitu tidak dapat melaksanakan penyuluhan massal, frekuensi kunjungan dibatasi, mengurangi materi penyuluhan dan mengubah metode pembinaan.
