

## CHAPTER IV

### CONCLUSION

#### 4.1 Conclusion

This chapter presents the analysis of types of deixis which are proposed by Yule (1996, p.9-16). They are person deixis, spatial deixis, and temporal deixis. The data are taken from the participants' utterances in interview video as found on YouTube channel, 'Percy Jackson' EPs Rick & Becky Riordan Pinpoint When They Knew Disney+ Adaptation Got It Right. In this video, Rick Riordan and Becky Riordan are as the guests. This interview video is hosted by Andi Ortiz. The data are deictic words in participants' utterances. Therefore, the title of this research is The Analysis of Deixis in Rick Riordan's Interviews for The Premiere of Percy Jackson and The Olympians Season 1 in 2023 on YouTube Channel. In this case, context is applied in analyzing the types of deixis in deictic expression of deictic words. As the findings in the research, the writer collected 317 data from 96 participants' utterances as the sources of data. After that, the writer analyzed the data into three types of deixis. They were 248 data for person deixis, 48 data for spatial deixis, and 21 data for temporal deixis. These findings show the use of three types of deixis which are used in each of participants' utterances randomly.

Based on the result above, it can be seen that person deixis is the most frequent used and appears in the interview. The participants frequently used person deixis because they were trying to talk about the things involved in the filmmaking process. Among them are the characters in the film, the production team, RR as the

author of the novel, BR who participated in the filming, and others. For spatial deixis, it mostly discussed the place of the filming location, the place of discussion of the film, and the location of the story of the novel or film. Then for temporal deixis, it mostly discussed the time when the discussion about the movie, the time during the filming process, and the time around the events related to the novel or film.

#### **4.2 Suggestion**

This research only analyzed person deixis, spatial deixis, and temporal deixis from utterances performed by Rick Riordan and Becky Riordan as the guests, also Andi Ortiz as host. The conversation is contained in a video interview from TheWarp on YouTube titled 'Percy Jackson' EPs Rick & Becky Riordan Pinpoint When They Knew Disney+ Adaptation Got It Right. The writer suggests next research on deixis. In doing research on deixis, many interpretations in meaning and language use. Therefore, deixis can be analyzed into any language phenomena around our daily life.
