**ABSTRAK**

**Tujuan Penelitian**

Lomba Sekolah Sehat (LSS) merupakan upaya pemerintah meningkatkan dan mengevaluasi pelaksanaan program UKS. Kurangnya pembinaan, pembiayaan dan sarana penunjang UKS dimasa pandemi COVID-19 menyebabkan akses siswa terhadap informasi dan layanan kesehatan terputus. Tujuan penelitian untuk menganalisis kesiapan ketenagaan, pembiayaan, dan pelaksanaan TRIAS UKS menghadapi penilaian LSS tingkat Provinsi tahun 2021.

**Metode**

Penelitian merupakan penelitian kualitatif, dilaksanakan pada Oktober 2020 - Maret 2021 di TK Pembina, SDN 13 Simpang Rumbio, SMPN 3 Kota Solok, SMAN 4 Kota Solok. Menggunakan teknik *purposive sampling* dengan informan 18 orang. Pengumpulan data dengan *deep interview*, telaah dokumen dan observasi. Diolah dengan reduksi data penyajian data dan penarikan kesimpulan. Dianalisis dengan triangulasi sumber dan triangulasi metode.

**Hasil**

Hasil penelitian, ketenagaan dalam struktur Tim Pembina UKS yang tidak diperbarui mengakibatkan pembinaan tidak dilakukan dimasa pandemi covid 19. Pembiayaan untuk persiapan LSS terdampak defisit anggaran di tahun 2020-2021. Pelaksanaan TRIAS UKS hanya difokuskan pada kegiatan pendidikan kesehatan dan memfasilitasi sarana penunjang pencegahan Covid-19 disekolah..

**Kesimpulan**

Belum ada persiapan optimal disekolah peserta LSS Kota Solok. Dengan pembaruan struktur ketenagaan, pengadaan pembiayaan, pembentukan kader kesehatan sekolah dan pemberian sanksi tertib adminitrasi bagi sekolah, diharapkan Tim pembina UKS Kota, Kecamatan dan sekolah dapat kembali melakukan pembinaan persiapan penilaian LSS berikutnya.

**ABSTRACT**

**Research purposes**

Healthy School Competition (LSS) is the government's effort to improve and evaluate the implementation of the UKS program. The lack of guidance, financing and UKS supporting facilities during the COVID-19 pandemic caused students' access to health information and services to be cut off. The purpose of the study is to analyze the readiness of personnel, financing, and implementation of the UKS TRIAS to face the Provincial level LSS assessment in 2021

**Method**

This research is a qualitative research, conducted in October 2020 - March 2021 at TK Pembina, SDN 13 Simpang Rumbio, SMPN 3 Solok City, SMAN 4 Solok City. Using purposive sampling technique with 18 informants. Data collection by deep interview, document review and observation. Processed by reducing data presentation of data and drawing conclusions. Analyzed by source triangulation and method triangulation.

**Result**

The results of the study, the staff in the structure of the UKS Guidance Team that was not updated resulted in the coaching not being carried out during the covid 19 pandemic. Financing for LSS preparation was affected by the budget deficit in 2020-2021. The implementation of the UKS TRIAS is only focused on health education activities and facilitating Covid-19 prevention support facilities in schools

**Conclusion**

There is no optimal preparation at the LSS participating schools in Solok City. With the renewal of the workforce structure, procurement of financing, the formation of school health cadres and the provision of disciplined administrative sanctions for schools, it is hoped that the City, District and school UKS development teams can again conduct coaching preparation for the next LSS assessment
