

## CHAPTER VI

### CLOSING

This chapter contains the conclusions that have been obtained from the research and recommendations for further research.

#### 6.1 Conclusions

The conclusions obtained based on the results of the study are as follows:

1. The results of the usability measurement on the entire Unand library website obtained an average usability level value of 75%, which is included in the appropriate category with a usefulness indicator value of 74%, ease of use indicator value of 74%, ease of learning indicator value of 76%, and the value of the satisfaction indicator is 73%.
2. Based on the result, the satisfaction indicator needs to be improved because the satisfaction indicator has the lowest value among other indicators. Most of Unand library website featured has the lowest value of satisfaction indicator.

#### 6.2 Recommendations

Recommendations that can be given for Unand library website are:

1. Provide the instruction and guidelines for using the Unand library website to help users in learning this system.
2. Use the constant layout, provide the information on each feature, and give the literature recommendations that match the given keywords.
3. Conduct socialization with Unand students regarding the Unand library website and the features available on this system.
4. Complete the literacy and make improvements in the User Interface (UI) of Unand library website.
