DALAM PENCEGAHAN COVID-19 DI RW 08 KELURAHAN
PASIE NAN TIGO**

ABSTRAK

Tokoh masyarakat merupakan seseorang yang terpancang karena pengetahuan, kebijaksanaan dan kesuksesannya dalam menjalani kehidupan di masyarakat. Sebagai *role model*, hendaknya para tokoh masyarakat memiliki sikap dan perilaku yang baik terutama dalam kondisi pandemi covid-19 saat ini. Peran tokoh masyarakat akan mempengaruhi dan menggerakkan masyarakat luas dalam berbagai kegiatan positif seperti dalam pencegahan Covid-19. Penelitian ini merupakan penelitian kualitatif dengan pendekatan *case study research* yang bertujuan untuk mengeksplorasi perilaku dan peran tokoh masyarakat dalam pencegahan covid-19 di RW 08 Kelurahan Pasie Nan Tigo. Teknik pengumpulan data menggunakan *In-depth Interview*. Jumlah partisipan dalam penelitian ini sebanyak 3 orang yaitu lurah, ketua RW dan ketua RT. Hasil wawancara ditranskrip secara verbatim dan diolah sehingga menghasilkan 2 tema utama yaitu : (1) Upaya pencegahan primer dengan subtema upaya perlindungan diri; (2) Dukungan tokoh masyarakat dengan 2 subtema dukungan informatif dan dukungan instrumental. Diharapkan kepada pelayanan kesehatan agar lebih memaksimalkan peran dan memberikan edukasi kepada tokoh masyarakat serta bekerjasama dengan tokoh masyarakat dalam upaya pencegahan penyebaran virus covid-19.

**CASE STUDY: BEHAVIOR AND ROLE OF COMMUNITY FIGURES IN
COVID-19 PREVENTION IN RW 08 KELURAHAN PASIE NAN TIGO**

ABSTRACT

A community figure is someone who is respected because of his knowledge, wisdom and success in living life in society. As role models, community leaders should have good attitudes and behavior, especially in the current state of the COVID-19 pandemic. The role of community leaders will influence and mobilize the wider community in various positive activities such as in preventing Covid-19. This research is a qualitative research with a case study research approach that aims to explore the behavior and role of community leaders in preventing COVID-19 in RW 08 Pasie Nan Tigo Village. Data collection techniques using In-depth Interview. The number of participants in this study were 3 people, namely the village head, the head of the RW and the head of the RT. The results of the interviews were transcribed verbatim and processed to produce 2 main themes, namely: (1) Primary prevention efforts with the sub-theme of self-protection; (2) Support from community leaders with 2 sub-themes, informative support and instrumental support. It is hoped that health services will maximize their role and provide education to community leaders and cooperate with community leaders in efforts to prevent the spread of the COVID-19 virus.
